# Equality

in academia  
and industry

## CONNECT

Connecting Women's Careers  
in Academia and Industry

## CONNECT...

...links academia and industry in a unique way

...helps to structure your career planning

...provides you with a network of role models in industry

...is based on a competency-oriented training as introduction

...offers you 6 or even 7 fantastic and diverse one-day-workshops

### THE PROGRAM «CONNECT» ADDRESSES FEMALE RESEARCHERS...

- Postdoc (late PhD only if seats are not fully booked) from science, technology, engineering, and mathematics (STEM)
- interested in the next career steps
- eager to get to know industrial career opportunities
- with time for 4 one-day-workshops

### PROGRAM DETAILS

- Language is English
- Agenda:
  - 6-7 one-day-workshops between September 2020 and January 2021
  - Think about your career planning
  - Learn how to write a CV for an application in industry/government
  - Meet role models at project partners' locations**Participants are expected to attend all one-day workshops.**
- Costs: the program is free of charge thanks to the support of project partners, academic institutions and Swissuniversities. Travel costs are up to the participants.
- Application: Seats are limited, **application** is needed by **May 24, 2020** the latest.
- Further details as well as the application form are available on [www.connect-women.ch](http://www.connect-women.ch)
